THE ROLE:

Due to increased machinery sales and workload within the depot, we are now recruiting for an Experienced Service Technician for our Northallerton Depot with the ability to work in a modern workshop as well as onsite servicing and repairing Case IH, JCB, Kverneland, Vicon and Bednar machinery.

RESPONSIBILITIES:

- Provide excellent customer care and service;
- Fault diagnosis and repairs - both in the workshop and onsite environments;
- Complete all relevant service paperwork in a timely manner;
- Represent the company and company brand;
- Support and lead junior staff where required.

THE SUITABLE CANDIDATE WILL:

- Have ability to diagnose and repair modern Agricultural Machinery;
- Possess good knowledge of modern farming practices;
- Be a disciplined person who can work well alone or as part of a team;
- Excellent at meeting deadlines;
- Hold a Full UK Driving license;
- Ideally hold an Engineering / Mechanical qualification;
- Have experience with diagnostic equipment and proficient with IT systems;
- Be willing to attend supplier training courses.

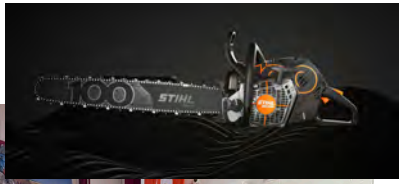
Protect: your hardest working asset from rural crime!

Polaris has a range of integrated security solutions, including tracking, geofencing and immobilisers, specifically aimed at combatting rural crime and protecting your Sportsman or Ranger from thieves.

Think: Fighting back against crime.

PAXTONS LATEST



LIMITED EDITION STIHL

Paxton's have sold their first limited edition Stihl product, a MS500i Centennial chainsaw which is celebrating their 100 year anniversary.

A Century of Power, Right in the Palm of Your Hand!

We are absolutely thrilled to announce that Paxtons has officially sold our very first STIHL MS 500i Centennial Edition chainsaw!

To celebrate 100 years of legendary STIHL engineering, this strictly limited-edition powerhouse pairs world-first electronic fuel injection with a jaw-dropping, stealth-black anniversary finish. It's not just an incredible professional-grade tool—it's a piece of history.

Pictured below is our very own Marc Varley alongside Simon ,one incredibly pleased Paxtons customer, sending this absolute beauty off to its new home!

REX Nordic REX 14000

Beat the heat with an Evaporative Air Cooler

Beat the heat sustainably with the Rex Nordic REX14000 Evaporative Air Cooler - the ultimate high-performance cooling solution designed to slash your energy costs. Engineered for demanding commercial and industrial spaces like warehouses, workshops, and public venues, this heavy-duty unit delivers a massive 14,000 m³/h of refreshing airflow to comfortably cool areas up to 120 m². By utilizing a natural, mist-free water evaporation system instead of toxic chemical refrigerants, it operates with zero global warming potential and consumes a maximum of just 510 W/h, providing industrial-grade relief at a fraction of the operating cost of traditional air conditioning.

Safety and convenience are built right in, featuring an integrated UVC light sterilization system that continuously purifies the water supply to neutralize up to 99% of bacteria and viruses. Designed for seamless, plug-and-play mobility, the REX14000 is equipped with heavy-duty castors, multi-directional electric shutters, a large 60-liter water tank, and a standard hose connection for an uninterrupted, automatic water supply. It is the hassle-free, eco-conscious investment your workspace needs to maximize team comfort and boost productivity all season long.

SOMETHING TO CONSIDER

'Don't forget to check your work area for wildlife before starting to use your tool. In particular, you should check for nesting birds before trimming hedges, as well as checking for other small animals such as hedgehogs before trimming long grass'.

Innovation in the Field: Paxtons Showcases Kverneland's Finest at Grassland Demo Day

Brilliant turnout at Kirkbride and Bentham as local farmers gather to see the latest in grassland innovation and efficiency.

JG Paxton & Sons Ltd recently hosted itshighly anticipated Kverneland Grassland Demo Day, drawing an impressive crowd of local farmers, contractors, and machinery enthusiasts eager to see the latest forage technology in action.

Taking advantage of the seasonal window on Tuesday, 19th May, and following the great success Friday 22nd May the live event provided a prime opportunity for attendees to witness firsthand how Kverneland's durable lineup performs under real-world field conditions.

High Performance on Display

The core focus of the day was optimising efficiency and precision. The Paxtons team put a comprehensive fleet of Kverneland kit through its paces, showcasing everything from high-capacity mowing to immaculate crop handling.

The demonstration highlighted the latest Kverneland triple mower conditioners, renowned for their ground-following capabilities and exceptional work rates. Following closely behind were the heavy-duty Kverneland tedders and twin-rotor rakes, demonstrating how intelligent rotor design minimises crop contamination while maximising wilting efficiency.

Expert Support on Hand

The Paxtons sales and service teams from across their regional depots were on hand throughout the day, working alongside Kevin, from the Kverneland team, a product specialist who was able to answer technical questions, both teams working together to offer setup advice, and discuss tailored finance packages.

"We are absolutely delighted with the brilliant turnout," noted a Paxtons spokesperson. "It's fantastic to get back out in the field with our customers and show exactly what these machines can achieve. Kverneland always bring you the best for the best and today they didn't fail, and seeing the kit work so cleanly today proves why it's a gold standard for grassland management."

Will Paxtons, Jon May and the Specialists, Gary, Scotty and Tom all want to extend another massive thank you to absolutely

everyone who made our Grassland Demo Days at Kirkbride and Bentham a resounding success.

To our contributors: Thank you Robert Thornton from Kverneland for your hard work, expertise, and support in bringing the events together.

To everyone who attended: Thank you for coming along, catching up, and adding to the incredible atmosphere.

If you saw something that caught your eye, or if you want more information on growing your fleet this season, please get in touch with the team.

The Bentham event was kindly hosted by Leonard Metcalfe of Fleets Farm, Gressingham.

By Kind permission of Messrs Little, Kirkbride House
